QUICK MOUNT  
cam locks

These all new interior lights will quickly become the standard by which all interior lights will be rated.

From O.E.M. styling and servicability, to low profile quick mount (patented) cam locks for simple install.

Both single and double lamp assemblies feature 3 way switches for up to two power inputs (IE: both ignition and or courtesy light functions).

These lights have both UL and CSA certification.

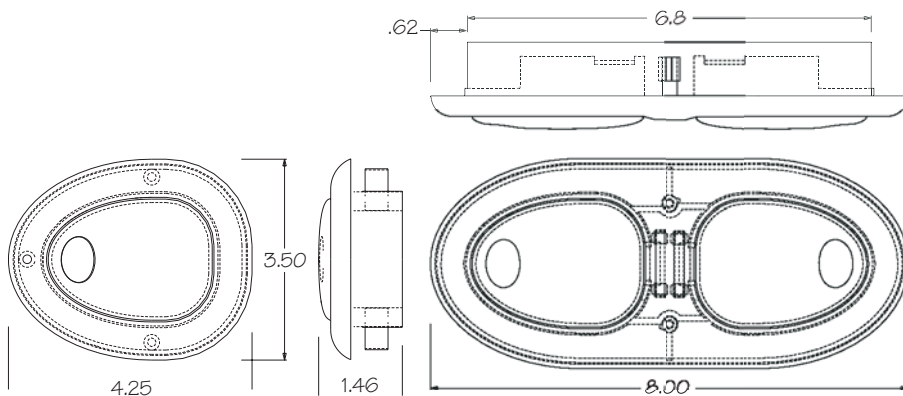

Units are molded in high impact ABS and the lens assemblies are molded in rugged polycarbonate for years of trouble free high performance operation.

The snap on bezels hide the fasteners to complete the installation.
