SPECIFICATIONS

material A.B.S. HOUSING/BEZEL

At ATC, we are constantly pushing the limits of design. With our new generation of headphone stations, we can now offer you an O.E.M.-type audio station with exceptional performance and integrated function.

This unit features a contoured slot to secure headphone storage right in the headphone station.

No more searching the floor or seat pockets for your headphones. This all-inclusive station holds everything neatly in place and out of the way until you're ready to enjoy high quality audio.

Additional features include standard L.E.D. backlighted information, which provides years of rugged, reliable service.

Stations or complete systems - with color-coded harnesses - are available in RADIO/TV, TV/TV or RADIO/MTS/TV. Custom systems are available on request.

Units are available in black molded rugged A.B.S. for O.E.M. quality and appearance.

ASK ABOUT OUR HIGH-FIDELITY VOLUME CONTROL HEADPHONES TO COMPLETE THE INSTALLATION!
